

KLOVE is so important to me!! I get positive and encouraging messages from listening to this station. I believe if more people in my country would fill their mind with the kind of input that I receive from KLOVE, the world would be a better place!! The things I hear on KLOVE help me be a better citizen. I think there are many people that listen to KLOVE in my community. I believe it would adversely affect my community if KLOVE were taken off the air because it is difficult to find "positive entertainment" on the t.v. or other radio stations. I believe the service provided by KLOVE is of public interest because I believe that the world is increasingly becoming overcome with evil. I believe in God and that KLOVE is a way for the gospel message to reach many people before the things in Revelation take place. God Bless. Love in Christ!! Brenda
